29x2.25 Ninety Zero One

ROAUICK®

29x2.25 Ninety Zero One

The ROAUICK 29 x 2.25 Ninety Zero One MTB Tyre Set is designed for riders looking for a versatile tyre that performs across a variety of surfaces.
Featuring a multi-knob tread pattern, it delivers dependable traction on dirt, gravel, hard-packed trails and mixed off-road terrain, while maintaining a good balance between grip and rolling performance on the road.
The pronounced tread blocks provide added bite on loose surfaces, while the shoulder tread helps with cornering control and stability.

ROAUICK®

29x2.35 Ninety Zero One

ROAUICK®

HY 29x2.35 Ninety Zero One

Fast Rolling in Dirt and on Road

HY by Roauick 29 x 2.35 -Ninety Zero One Tread MTB Tyre is a budget friendly tyre designed for riders looking for a versatile tyre that performs across a variety of surfaces.

Featuring a multi-knob tread pattern, it delivers dependable traction on dirt, gravel, hard-packed trails and mixed off-road terrain, while maintaining a good balance between grip and rolling performance on the road.

The pronounced tread blocks provide added bite on loose surfaces, while the shoulder tread helps with cornering control and stability.

ROAUICK®

29x2.40 Eighty Twelve

ROAUICK®

29x2.40 Eighty Twelve

MULTI-TERRAIN MTB TREAD | GRIP • CONTROL • COMFORT • DURABILITY

Specifically engineered for modern 29er riders who demand a balance between rolling speed and aggressive side-bite. This performance tire delivers predictable handling in diverse terrain conditions.

Its optimized convex tread pattern provides substantial mechanical cornering stability on hard-carved dirt berms while minimizing the sluggish rolling drag common in deep mud tires.

The Eighty Twelve’s lower rolling resistance formula is optimized for speed and range.

ROAUICK®

700X28C Eighty Thirty-Four

ROAUICK®

700X28C Eighty Thirty-Four

ROAD TREAD | GRIP • SMOOTH • COMFORT • URBAN

Tread pattern designed for a smooth, responsive ride on everyday roads and urban surfaces.

The Eighty Thirty-Four is designed for cyclists looking for a tyre that offers a good combination of rolling efficiency, road grip, comfort and durability.

The smooth centre section for efficient rolling with textured tread elements towards the sides for added road contact and confidence when cornering.
